We are happy to Invite you to our
EARLY INTERVENTIONS FOR CHILDREN WORKSHOP

Saturday, 16 March 2019, 10.30 – 13.00

Training facilitated by **June Todd** (International Expert) for **ADHD & Autism Spectrum**

June Todd says 'I have 23 years' experience as a Headteacher in a very successful Primary school which had a very high percentage of children with specific needs and an Early Years Speech and Language Unit serving the North West UK. The support and provision for children attending the school was recognised by Ofsted as 'outstanding' as was leadership and management.

I have been a successful independent consultant for the past eleven years working both within the UK and internationally. In this role I support schools across all phases in achieving Educational Quality Marks and Standards based on school improvement and raising attainment. I also provide personalised consultancy and training courses for schools and universities. Training is delivered from my breadth of experience and from the heart in my belief that all children can achieve. Training sessions present strategies, information and resources that can be used to raise achievement and improve teaching and learning.'

Location of Event: International Baptist Church (IBC), Lange Eikstraat 76, 1970 Wezembeek-Oppem
