

APEEE General Meeting of 15 December 2016

DRAFT MOTION 2

CONSIDERING

- that the current security measures and restrictions on access to the School make it impossible for parents to drop off their children in the morning;
- that virtually no parking or drop off facilities exist in the neighbourhood of the School,
- that, in consequence, parents dropping off their children are faced with an impossible traffic situation which is a safety hazard to all,

CALLS UPON THE SCHOOL

- to discuss with the Commune of Ixelles the possibility of creating a kiss and ride area in the stretch between the two School car entrances, by slightly relocating the foot path and the cycle path.
